

DESERT MEDICAL IMAGING

The Coachella Valley's leader in
medical imaging services

Precision care from board-certified,
fellowship-trained radiologists who will
guide you through the process and work
with your doctor to get the answers you need.

■ IMAGING

MRI, CT, Ultrasound, PET/CT, X-Ray

■ SPECIALTY IMAGING

Prostate Cancer Detection, Coronary Artery Imaging,
Alzheimer's Surveillance, Brain Imaging including
Traumatic Brain Injury, Lung Cancer Screening and
Virtual Colonoscopy.

■ PAIN MANAGEMENT

Image Guided Therapeutic Injections targeting the cause
of the pain including sports related injuries and stem cell
therapy clinical trials (site participant).

■ PROSTATE CANCER PROGRAM

At DMI, we use MRI as a new option for the detection and
localization of prostate cancer for men with abnormal PSA
levels. A diagnostic MRI creates a detailed cross-sectional
image of the prostate gland without an invasive
procedure. DMI's world recognized radiologists then
examine the images using Computer Aided
Detection to identify areas in the gland that look
suspicious; these areas may be further evaluated
through a targeted MRI-guided biopsy.

NATIONAL WEAR RED DAY IS FRIDAY, FEBRUARY 2ND

1 in 3 women die of heart disease
and stroke each year

**Join us as we honor our mothers,
sisters, daughters and friends.
Know Your Risk Factors!**

■ LOOK TO THE EXPERTS. LOOK TO DMI. ■

Our doctors are Level II Cardiac CT Certified
and share over 40 years of combined
medical imaging experience

Advanced Heart Imaging at DMI:
Coronary CT Angiography (CCTA)
Coronary Artery Calcium (CAC) Score
